A 3D cube is shown on a grid. The cube is oriented such that its front face is a square with vertices at (1,1), (3,1), (3,3), and (1,3). The top face is a parallelogram with vertices at (1,1), (3,1), (2,4), and (0,4). The right face is a parallelogram with vertices at (3,1), (3,3), (2,4), and (2,2). The cube is drawn with black outlines and is centered on the grid.
